WoW Classic WoW Classic General Discussion I was bored waiting for the Classic, so I did this. You'll have to make a copy to use it yourself. DO NOT REQUEST PERMISSION TO EDIT. These requests will be ignored. Let us hope that this is a useful tool for the so-called Druids of Restoration. 2 Do you prefer to suggest: add a Pre-Raid Bis for Phase One so that people can judge their value before going into the raid? Add a Pre-Raid Bis for Phase One secure. I could/should do this for every stage, actually, as some people will still need to know this even after Phase 1. Well, I should have asked for more than Phase One, but if it was you, I'd be willing to do nothing else. Volunteered. Modification: Eloraal: Add a list of pre-Raid BIS Pre-raid BIS added! For sake sake consistency, I added 1-minute, 3-minute and 15-minute versions. Question for anyone who might know: Is there a way to have an offline version and apply changes made to that offline version to the live version of Google Sheets? If you want to be able to have an offline copy that synchronizes every time you connect to the Internet, go to Drive, find the file and turn on the Available Offline option on your PC that you want to be able to use it offline. Is there a way to have an offline version and apply the changes made to that offline version to the live version in Google Sheets? If you want to be able to have an offline copy that synchronizes every time you connect to the Internet, go to Drive, find the file and turn on the Available Offline option on your PC that you want to be able to use it offline. Not necessarily offline as in not connected to but a version that I can modify so that people who look at the spreadsheet don't see me tampering with it. I just want to upload all the changes immediately. Will this have the same effect? Oh, no, it's gonna show you will show you make changes when you are online. You can make a copy with a different name, make changes, then save it to the copy on the drive and make sure the unit name is the name in the box. So save the copy again only this time with a different name. It only requires saving it twice and changing the name. I mean that what taking Drive is looking for the name of the exact file. I'll give that a try, thank you. Updated the spreadsheet a bit as requested by a hit. Speaking of peace, I didn't see a way to save the spreadsheet. As far as I can tell, making a copy creates a completely new document that is linked to the URL. 1. The strategy of gears for healing priests to allow you to facilitate gearing both before and after your inserted raids, the gearbox spoke below often suggests alternative food items for the same slot, to help provide significant energy in a particular slot even if it is not the best object. 2. Mastery Elenchi season as the Mastery season of Wow Classic is composed of phases separated from the normal branch of the classic, we have created lists of unique gears for its pre-raids and phases. In addition, you may find it useful to look beyond our guide to changing fire resistance for your specialisation, which is applicable for the classic version. Healer Priest Season of Mastery Pre-Raid Bis Healer Priest Season of Mastery Phase 1 Bis Healer Priest Fire Resistance Gear 3. Raid Best in Slot (BIS) List for holy priests and discipline The gear below is focused on the best healing equipment for saints and Discipline priests in the final phase 6 Patch naxxramas. Tier 2 Priest Set Guide Healing Priest 3, parameters of faith, is one of the most basic sets and is generally considered not worth the bonus of level 2. You should continue to manage level 2 3-set throughout the progression of the naxxramas and fill it with the best items available. Tier 2 8-Set will come into play on various heads in Naxxramas if you have it, including the deitheb, deitheb, And Kel'Thuzad. For loacher, it allows you to provide additional healings in limited windows, for Sapphiron and Kel'Thuzad enables greater healing effectiveness on these high healings, long meetings. Specifically for Sapphiron, your equipment can change slightly depending on the needs, strategy and composition of your guild. That you choose to run any frost residue or choose to run 80 or more, suggestions on which slots to give priority are discussed further under the list of Best in slots. If you have the Tier 2 8-set, you can also be called for your efficient Raid Healing Mana that is the key to successfully defeating Sapphiron. Once you have released Naxxramas and you have it in the company, you will gradually replace all your Tier 2 items with the elements listed below. Slot Element Source Helm Circlet of Faith Don Rigoberto S's Lost Hat Thaddius royalty-free stocked in AQ40 Neck Amulet of the Fallen God ** Necklace of Security ** C'Thun in AQ40 Heigan Unseen in Naxxramas Holds Holder Blocks of Faith Patchwerk Shoulk , Grobbulus or Gluth in Naxxramas Cloak of Sutured Cloak of Clarity Patchwerk in Naxxramas C'Thun in AQ40 Chest Robes of Faith Robes of the Guardian Saint The Four Horsemen in Naxxramas Fankriss The Unceding in AQ40 Wrist Binters of Faith Brandials of Royal Redemption Gloves of Faith Quest Reward of Gloves of Faith of Faith (Gluth, Gothik The Ravious Crop and Instructor) at Naxxramas Belt Grasp of the Old Belt of Faith C'Thun in AQ40 Quest Reward from Belt of Faith (Heigan The Unseen, Noth The Plaguebringer and gluth) in Naxxramas Gambes of Faith Boots Sandals of Faith Boots of Pure Thought Ring of Faith Band of Unanswered Prayers Pure Elementium Band Ring of the Martyr Trinct Warmth of Forgiveness Eye of the Dead Rejuvenating Gem Shard of the Scale One-Hand Hammer of the Twing Nether Off-Hand Sapphiron's Yard Eye Frigid a Naxxramas Noth the Plaguebringer in Naxxramas Staff Spire of of Chisel wand razoso instructor wand in Naxxramas ** Note 1: The amulet of the god dropped from C'Thun was a highly disputed object with most of the wheels that want him. If you weren't able to get one in aq40, the necklace of necroscopy is a fantastic alternative. 4. Holy Priest and PvP Best Discipline in Slot Gear Gear You can find our recommended pvp gear as a holy priest and discipline in the link below. PVP Holy Priest and Best Discipline in Gear Slot 5. Gear Resortee Gear for Saints Priests and Discipline The main gastronomy The reduction of frost resistance is desired for is Sapphiron in Naxxramas. Whether you choose to run any antifreeze resist or choose to run 100 or more, the following list will help you give the priority as you can get the resistance of the desired frost. As a general guide to balancing both the healing throughput and the management of incoming damage that we suggest you get about 70-80 frost resistances on the march. This is therefore integrated with enchantments and consumables to further reduce frost damage taken. Keep in mind if you have the Tier 2 8 Set level you may also be called for your efficient Raid Healing Mana that is fundamental to successfully defeat Sapphiron.
