I'm passionate about many things, makeup, fashion, pink color and food! In my perfect world, there are two food groups: breakfast and chocolate. This is really all you need to live a happy life. I recently embarked on a super healthy food lifestyle. I have always been one to take care of the foods I am putting in my body, but I still considered what I was eating to be unhealthy. I'm the one person who would rather pack a sandwich than eat fast food or order my salad dressing on the side so I can dip the fork in it to avoid excess calories. I was still eating carbohydrates and processed sugars... a lot of sugar. This is why I recently decided to cut processed carbohydrates and as many unnatural sugars as possible. That said, I cheat at least once a week. I'm still working on it. - the moment I made the choice to alter my way of eating, I took it to Pinterest. A moment of silence for the Empire that is Pinterest. I've been on Pinterest since high school and has always the makeup, fashion and inspiration of the trips, occasionally fixing a recipe that seemed interesting. I never really studied recipes, so I slowly wrote the words "eat breakfast" and hundreds of hundreds Recipes flashing before my eyes. 194; 160; It was at that time I knew I could stay with this !! For me, the most addressing part of eating healthy is always eating the same meals. Now I have a whole table dedicated to my clean food trip, with infinite recipes. Eeeeee !!! As I said, I - a fanatic of breakfast. I would eat food for breakfast for every meal, if it were realistic. I was very worried about breakfast because I could have cereals, bagels, toasts or anything I would normally eat with my eggs. I found this recipe for - and is so enhanced! Requires only the ingredients 5 (I added 1) and it takes about ten minutes from beginning to end. Score! Ingredients: 1 Banana 2 eggs 1/3 oat cup 1 TSP Butter A pair of blueberries A touch of vanilla extract (added this for a bit SOMTHITHITHINA 128; of SOMTHINKI226;) INDICATIONS: use a mixer , Banana mixture, vanilla extract, eggs and oats up to sanding. Pour a pan or a pan. The battery is dry, so keep the pancakes rather small. Add all the blueberries you want. Confess the pan with the butter and cook up to the golden brown on both sides. Top with topping choice. I added bananas and used the nectar Agave as a syrup. (Next time I will also add Pecan.) That's it! ; s it! f. - so fast and easy! I made them the night before to save even more time. I have to admit that I often eat them for dinner. LOL, I hope you find so much joy in these pancakes like me. I don't take the merit for this recipe, I just wanted to share with you guys. - Connect the original recipe here! Happy meal! Xo, Tanner Mann
