## Driver touchpad acer aspire e14 windows 10 64 bit

» acer » acer aspire » acer series and » laptop specifications acer aspire E5-473G processor: intel core i5-5200U graphics: nvidia GeForce® 940m display: 14", res 1366 x 768 storage: hdd 500 / 1tb memory: 4gb memory slot: 2 slot max memory: 8gb before downloading the driver, please watch the first driver windows 8.1 64 bit intel chipset 4 mb download audio realtek audio 348 mb download bluetooth driver bluetooth atheros 77 mb download bluetooth broadcom 185 mb download bluetooth intel 5 mb download card reader realtek 8mb download driver lan realpadtec 5mb download driver touchpadtech 7mb download synaptic touchpad. 601kb download vga intel vga driver. 114mb download nvidia vga driver. 385mb download wireless driver atheros 77mb download wireless broadcom 185mb download wireless intel 165mb download driver windows 10 64 bit intel chipset download audio realtek audio 450 mb download bluetooth driver atheros 59 mb download bluetooth broadcom 9 mb download bluetooth intel 5 mb download card reader 12 mb download lan realtek touchpad 7 mb download vga intel vga driver. 170mb downloads nvidia vga driver. 431mb download wireless driver atheros 110mb download wireless intel 192mb download driver acer aspire E5-411 for windows 10 64bit download download download download download download download Driver6.0.1.7553442.4 MB2015/08/24Driver1/0702 Note: 1. Acer did not list 2 drivers on the original site, and it is recommended to get the drivers from Windows update. The drivers are for the graphic and synaptic touchpad Nvidia. 2. Original driver on Windows 8.1 have Intel Turbo Boost and replaced with Intel Rapid Start in Windows 10. Intel Chipset Chipset Installation Utility 10.1.1.7 Download Intel IRST Intel Rapid Start Technology Driver 14.5.0.1081 Audio Realtek HD Audio 6.0.1.7553 Bluetooth: (choose a base on specifications) Intel Bluetooth driver 17.1.1524.1353: Download Bluetooth Broadcom driver NFA222 10.0.1.0: Download Bluetooth Atheros driver 10.0.1.0: Download Genesys Card reader Driver: Download Intel Serial IO driver IO 14.5.0.1081 LAN - No.Realtek Ethernet Controller Driver 10.1.505.2015 Touchpad ELANTech Touchpad 13.6.3.1 Graphic -VGA Intel HD Graphic Card 10.18.15.4248 Wireless: (choose a base on specifications) Intel Wireless LAN Driver 7.35.267.0: Broadcom Wireless LAN Driver 18.11.0.8 Atheros Wireless LAN Driver 10.0.0.318: Kaikho Choice Solution, Here is something you can try from the forum below. Go to the Acer driver page for your computer. Download Intel IO Chip Set Drivers for Windows 8.1. Run the driver configuration in "compatibility mode" and install. You will have to restart the computer. The computer will then recognize the track pad as a valid device. Then download and install the Synaptics (or Elan) driver for Win 10 from the Acer support page and restart. If the track pad is not immediately active on the restart, press the F7 function. You can also check the link for more information. / soluble shooting ideas. Good luck. I hope this has helped you, if so let me know by pressing the useful button. ... I had the same problem recently and solved the problem by installing IO drivers.. This is the link to the WIN10 64 bit IO intel driver... I hope this will help hello you can get BIOS and change an advanced touch pad to BASIC and will work. you do not need to download drivers for windows 8.1 Lanie Cabanban's post worked for my Acer Aspire E-15 ES-511-COPC. Immediately after installing the IO driver, trackpad worked, where notthe suggestion made. It wasn't in the BIOS, the latest update of Windows 10 was Aug/15/2019, and the installation of the driver didn't work. Thank you, Lanie. A. POSTED: 07/15/2018 I had the same problem recently and solved the problem by installing IO drivers.. This is the link to the WIN10 64 bit IO intel driver... I hope this will help This worked partly for me and totally indicated me in the right direction. Now the laptop is FISSO!!!:D It was an Acer Aspire E5 511 Trackpad not to appear in the device manager. Installed synaptic drivers and Elan, but without luck. So you tried to install the Chip set drivers still no good, you kept saying error with copying the file on a DLL. What he did for me was the installation: Driver for the device And then everything else later. I finally fixed my brothers' laptop. I'm thinking that the serial IO is that part of the motherboard that connects the computer to its peripherals, including the Trackpad. I hope this helps you as the main answer really helped me a little. Thank you. I updated from Windows 7 to Windows 10. The touchpad has not been listed in Device Manager. It entered bio, changed touchpad option from Advanced to Basic. Rebooted and works well. Apparently, installing windows 10 in Legacy BIOS is a bad idea if you like the touchpad. I installed windows in UEFI and now works well:) After testing and error numerous times with 8.1 win drivers and all nonsense, I noticed my bios have no chance to change the touchpad settingadvanced to the base so obviously I need to update my bio... Change the setting and its sinaptics driver touchpad installation and restart FN+ F7 does not work
