## Puzzle diagram powerpoint

BACK About this template How to edit Custom Design Services Sum up your company strategy in the circular puzzle diagram. A solid business strategy should have all its actions aligned with the main goal and that's exactly what you can visually communicate using each puzzle piece from this slide. You will find four text sections to explain how to implement the actions of your strategy. Five staged Puzzle Timeline Do you need to showcase a process? The puzzle pieces assembled together so you can easily present one step after the other in a nicely and ordered way. This zigzag timeline can also work if you need to present ideas or concepts linked together. Puzzle Pie Chart Believe it or not, puzzles are very similar to pie charts. These statistical graphics also known as circle charts show sections that make a whole, just like a puzzle. If you need to show numerical proportions, the puzzle pie chart is the data visualization tool you're looking for! List of contents There is a special slide with numbered puzzle pieces you can use at the beginning of your creative presentation as an agenda or list of contents. Puzzle pieces work perfectly in creative presentations Good speakers know how to get the attention of their audience thinking outside the box. The Puzzle Presentation Template comes with a great variety of slides that use puzzle pieces in creative ways. Puzzle Divider Slide See each section of your presentation as a piece that completes a puzzle: your slide deck! The Puzzle Divider Slide will help you introduce each topic of your presentation. Get your presentation custom designed by us, starting at just \$10 per slide. The main goal of business visualization is to train people to transform information already available, the one that should be transformed, and the one that is just being created. The elements of business visualization are successfully used in brainstorming, training, strategic sessions, negotiations, meetings, and other events. An increasing number of executives are resorting to business visualization techniques, realizing the effectiveness of this method. The essence of business visualization is not "art" but quick work with information. Diagrams, graphs, maps, models are the most effective formats for business visualization. They allow displaying any information concisely and clearly. To learn more about visualization, read the article. Below, you'll find templates with PowerPoint puzzle pieces. Slides do not have defects. All the products are tested and high-quality. Vivid and attractive slides will draw attention and help make complicated topics clear. Sort: Best Template New Template Relevance Popular Newest Undiscovered professional presentations including jigsaw pieces of puzzles with this Free PowerPoint Template. Each of the jigsaw pieces are individual PowerPoint Shapes. The user can edit their appearance and properties as color, size, shadow and 3D effects. The PowerPoint diagram includes four icons in order to map the puzzle with a metaphor. The user can replace the icons with any of shape more representative of the concept being discussed. The Flat diagram is elaborated with five pieces combined as a cross. Ideal for Five Steps processes or to define an agenda content. The shapes are colored with the theme palette. Changing the theme will automatically update the shapes. Item #FF0056-01100% Editable PowerPoint Versions, Keynote and Google Slides. Modern 16:9 Aspect Ratio. Authors Prezentio.com designers Contact: here To make the Jigsaw puzzle piece, do the following: 1. On the Insert tab, in the Illustrations group, select Shapes: 2. In the Shapes list, from the Rectangles and heads: 3. To add different forms of holes and heads, do one of the following: A. The very simple form of circle holes and heads: A.1. On the Insert tab, in the Illustrations group, click the Shapes dropdown list and then choose the oval shape from the Basic Shapes group of the Shapes list: A.2. To create heads on the puzzle figure, just union these two shapes. To union shapes, do the following: 1. Select both shapes. 2. Under Drawing Tools, on the Format tab, in the Insert Shapes group, click on the Merge Shapes dropdown list, and choose Union: You will see a new head on the shape: A.3. To create holes on the puzzle piece, just subtract the second shape from the first one. To subtract shapes, do the following: 1. Select the first shape that should be subtracted and then holding Ctrl, select the second shape. 2. Under Drawing Tools, on the Format tab, in the Insert Shapes group, click on the Merge Shapes dropdown list, and choose Subtract: You will see the new hole on the shape: B. The more realistic form of circle or teardrop holes and heads: If you want to create more realistic heads and holes, you need to re-positioning them for making holes: For heads For holes The positioning of the oval shape After union or subtract You can also try, for example, the teardrop shape After union or subtract See also this tip in French: Comment créer des pièces de puzzle simples à l'aide de formes PowerPoint.
