(Newly Updated) Five tested ways for you to transfer videos from PC to iPad. iPad is one of the most popular choices for surfing the internet, playing games, listening to music, and watching videos. It's a great companion to spend your leisure time with. To enrich your iPad content and enjoy it to the fullest, you may need to transfer files to the iPad from another device, like transferring videos from a PC to an iPad. Given that, here I will show you five reliable ways to transfer videos from PC to iPad. Apply one of them and then put movies, TV shows, and more to your iPad with ease. Method 1. How to Transfer Videos from PC to iPad Without iTunes Supports: Movies, TV Shows, and other types of videos in MP4, MOV, M4V, WMV, RM, MKV, AVI, FLV formats If you copy videos from PC to iPad using iTunes, the existing media files on your device will be "in danger" since the newly synced items will replace all of them. Due to this reason, you may want to find an iTunes alternative to get the job done. EaseUS MobiMover, one of the best iPhone video transfer software, is exactly what you need. Here are some key features and additional functions of it. Key features: It offers 100% full quality video conversion and supports a wide variety of file formats Lightweight and simple to use High transfer speed Fully compatible with almost all iOS devices in all iOS version Additional functions: iOS data management tool - It lets you manage your iOS files by transferring, deleting, and editing WhatsApp manager - It allows you to transfer WhatsApp to a new Phone Backup & restore tool - It provides you with an easy and convenient way to back up and restore data HEIC to JPG converter - It supports batch converting HEIC pictures to JPG Video converter - It lets you convert any video to MP3 with ease To transfer videos from PC to iPad: Download for PC Download for Mac Step 1. Connect your iPad to your PC and start EaseUS MobiMover. Unlock your iOS device and click "Trust" in the prompt asking for you permission. Then go to "PC to Phone" > "Select Files". Step 2. Select the videos you want to transfer to your iPad and click "Open". Step 3. Click "Transfer" to start transferring videos you selected from your PC to your iPad. When it has finished, you can go to check the items on your iPad. The steps above also show you how to transfer videos from PC to iPhone. In addition to videos, EaseUS MobiMover also supports photos, music, ringtones, contacts, messages... It works well whenever you need to transfer files between iPhone and Mac or between two iDevices. Method 2. How to Copy Videos from PC to iPad with VLC You may feel surprised when you know that you can transfer videos from PC to iPad using the VLC media player. But it's true that VLC allows you to share videos between your iPad and computer wirelessly if your tablet and computer are under the same network. VLC is a cross-platform media player that is available on both Windows and iOS. To add videos to iPad via VLC, you need to download and install the VLC app on your iPad. Afterward, follow the steps below to transfer videos from PC to iPad wirelessly. To send videos from PC or laptop to iPad: Step 1. Open the VLC app and click the icon in the top left corner. Step 2. Enable "Sharing via WiFi" and remember the IP address underneath. Step 3. On your PC or laptop, open a browser and enter the IP address (the numbers). Step 4. To transfer videos from PC to your iPhone, you can either add the items by drag-and-drop or click the plus icon. Then you will see the videos are being transferred to your iPad wirelessly and automatically. Step 5. The transferred items will be saved in the VLC app by default. If you intend to transfer videos from PC to your iPad camera roll, you need to select the video files, click the share icon and choose "Save [number] Videos" to export them to the Photos app on your device. Method 3. How to Add Videos to iPad with iCloud "How do I transfer videos from PC to iPad wirelessly?," many users asked. Actually, apart from the VLC app mentioned above, there are other options for you to transfer videos from PC to iPad over a network connection, including using iCloud. iCloud is Apple's solution for you to share files across your iPhone, iPad, iPod, Mac, and PC. Before you start, you should know that the videos you want to transfer are at most 5 minutes in length and 720p in resolution, which is quite limited. If your videos don't meet the requirement, switch to other ways available in this guide. To transfer videos from PC to iPad using iCloud: Step 1. On your iPad, go to "Settings" > [your name] > "iCloud" > "Photos" and enable "iCloud Photos". Step 2. Upload the video files you want to transfer to iCloud. If you have installed iCloud for Windows, go to iCloud settings and enable "iCloud Photo Library" and "Upload new photos and videos from my PC", then copy the videos to the folder under the latter option. If not, go to iCloud.com and sign in with the Apple ID you use on your iPad. Afterward, click "Photos" and upload the video files to iCloud by clicking the upload icon. Step 3. When the syncing process has completed, open the Photos app on your iOS device to check the videos. If you want to transfer files like Word documents and PPT files, using the document-oriented iCloud service - iCloud Drive is a good choice. Method 4. How to Transfer Videos from PC to iPad with Google Drive Similarly to iCloud, the file storage service Google Drive also enables you to store files in cloud storage and sync files across your devices. Other choices include Dropbox, OneDrive, Tresorit, and more. To add videos to iPad from PC via Google Drive: Step 1. Go to drive.google.com and sign in with your Google account. Step 2. Click the "New" button and choose "File upload" or "Folder upload". Step 3. Find and select the files or folders you'd like to transfer and click "Upload". Step 4. Download and install Google Drive for iOS on your iPad from the App Store. Step 5. Sign in with your Google account and now you could access the items from your computer. Download the videos to your device if necessary. If you decide to use a cloud storage service, make sure you are using the same account on the devices and there is enough storage to store the items. Method 5. How to Transfer Videos to iPad with iTunes iTunes will help you in two ways. If you want to put movies or TV shows that are in your iTunes library to your iPad, you should use iTunes syncing. If you intend to transfer videos to iPad without syncing, using iTunes File Sharing instead. Option 1. Transfer Movies/TV shows to iPad with iTunes Syncing If you have purchased movies or TV shows from the iTunes Store and want to copy the items from your iTunes library to your iPad, use iTunes data syncing as shown below. Step 1. Connect your iPad to your computer with a USB cable and wait for iTunes to launch automatically. Step 2. Unlock your iPad and trust the computer. If required, enter your iPad password. Step 3. Click the device icon. Under "Settings", choose "Movies" or "TV Shows" according to your needs. Step 4. Click the checkbox next to "Sync Movies" or "Sync TV Shows" and choose the videos you want to transfer. Step 5. Click "Apply" to start transferring videos from PC or laptop to your iPad. Option 2. Copy Videos to iPad with iTunes File Sharing You can transfer videos from PC to an app on your iPad that supports file sharing. Step 1. Connect your iPad to your computer with a USB cable and run iTunes if it doesn't open automatically. Step 2. Unlock your device and trust the computer. If required, enter your device passcode. Step 3. Select the device icon and choose "File Sharing". Now you should see a list of the apps that support file sharing, including many video-related apps. Step 4. Choose the app you want to copy the videos to, e.g. iMovie, and then add the video file to the app. You can either drag the videos you want to transfer to the window on the right side or click "Add File" to add the items to the app. Afterward, the file will be copied to your device automatically. Step 5. When it has finished, Open "iMovie" and click the download icon. Step 6. Select "iTunes" > "Import [number] Files". By doing so, you can transfer videos to your iPad from PC successfully. The Bottom Line Which way will you use to get a video file from PC to your iPad? For you to make a better choice: EaseUS MobiMover not only supports the video transfer between an iPhone/iPad and a computer but also assists you to download a video from websites like YouTube, Facebook, Twitter, and more to your computer or iPhone/iPad. iCloud is the only option that saves the photos in your iPad camera roll directly. VLC is a completely free solution for you to transfer videos from PC to iPad wirelessly. Google Drive provides you with more free space compared with iCloud but saves the synced files in its own app. iTunes is a good choice to transfer files that are in the iTunes library. Use the method best suited to your needs to copy videos to your iPad and then play or edit the videos on your device as you like to. ALSO AVAILABLE AT We use cookies on this website. By using this site, you agree that we may store and access cookies on your device Read More Got it! With the Photos app and a USB cable, you can transfer photos and videos to your computer. You can also make your photos available on all your devices with iCloud Photos. iCloud Photos keeps your photos and videos safe, up to date, and available automatically on all of your Apple devices, on iCloud.com, and even your PC. When you use iCloud Photos, you don't need to import photos from one iCloud device to another. iCloud Photos always uploads and stores your original, full-resolution photos. You can keep full-resolution originals on each of your devices, or save space with device-optimized versions instead. Either way, you can download your originals whenever you need them. Any organizational changes or edits you make are always kept up to date across all your Apple devices. Learn how to set up and use iCloud Photos. The photos and videos that you keep in iCloud Photos use your iCloud storage. Before you turn on iCloud Photos, make sure that you have enough space in iCloud to store your entire collection. You can see how much space you need and then upgrade your storage plan if necessary. Connect your iPhone, iPad, or iPod touch to your Mac with a USB cable. Open the Photos app on your computer. The Photos app shows an Import screen with all the photos and videos that are on your connected device. If the Import screen doesn't automatically appear, click the device's name in the Photos sidebar. If asked, unlock your iOS or iPadOS device using your passcode. If you see a prompt on your iOS or iPadOS device asking you to Trust This Computer, tap Trust to continue. Choose where you want to import your photos. Next to "Import to," you can choose an existing album or create a new one. Select the photos you want to import and click Import Selected, or click Import All New Photos. Wait for the process to finish, then disconnect your device from your Mac. You can import photos to your PC by connecting your device to your computer and using the Windows Photos app: Update to the latest version of iTunes on your PC. Importing photos to your PC requires iTunes 12.5.1 or later. Connect your iPhone, iPad, or iPod touch to your PC with a USB cable. If asked, unlock your iOS or iPadOS device using your passcode. If you see a prompt on your iOS or iPadOS device asking you to Trust This Computer, tap Trust or Allow to continue. Then, visit Microsoft's website to learn how to import photos to the Windows Photos app in Windows 10. If you have iCloud Photos turned on, you need to download the original, full resolution versions of your photos to your iPhone, iPad, or iPod touch before you import to your PC. When you import videos from your iOS or iPadOS device to your PC, some might be rotated incorrectly in the Windows Photos app. You can add these videos to iTunes to play them in the correct orientation. If you want to ensure photos from your iOS or iPadOS device have the best compatibility with Windows 10, try these steps: On your iOS or iPadOS device, open the Settings app. Tap Camera, then tap Formats. Tap Most Compatible. From now on, your camera will create photos and videos in JPEG and H.264 formats. Visit Microsoft's website to learn how to import photos using Windows 7 or Windows 8.
