Cada torre de macacos tem 3 caminhos de atualização para combater um tipo específico de balão. Apenas uma única torre de macacos pode alcançar a atualização do nível 5. Este jogo apresenta macacos Hero que podem ser aprimorados com 20 atualizações de assinatura. Cada um deles ativou habilidades para eliminar balões mais difíceis. Bloons TD 6 envolve placing towers in specific places to prevent the Bloons from breaking through your defenses. This will require strategy if you want to complete the higher levels of the game. Bloons TD 6 is a fun tower defense game that encourages you to embrace strategy when deciding your placement and upgrades. Tower defense games are often a fun and challenging experience that provides you with a multitude of ways to win. Bloons TD 6 has a variety of unique features that enhance the gameplay and the difficulty you'll experience. One of the most appealing aspects of Bloons TD is the vibrant colors you see while playing. These and the well-animated characters that slowly drift through your defenses make the game feel alive and enjoyable. Some of the characters you'll encounter are the unique heroes. There are 9 of these guys to unlock. Each game you're able to use one of your available heroes and upgrade them with their signature upgrades, changing the tide of battle. The towers you place are the most important part of any level, and through utilizing the correct ones, you'll be able to win every level you begin. Each tower you have positioned can be upgraded in one of three ways, providing versatile tactics. The game will present a challenge and a grind once you decide to complete it. To unlock all you're unlockables, you'll need to survive through many boring waves of clever tower placement and upgrades. Aside from the three upgrade paths each tower possesses, there are over 100 meta-upgrades available. These can buff the individual monkey towers or the money tower groups. Where can you run this program? Bloons TD 6 is available for devices running iOS 11.0 or later, Android 5.0 and up, or Windows 7 and higher. Is there a better alternative? No. There is no other tower defense game that's as fun to play as this one. However, if you enjoy a different form of strategy, Plague Inc. delivers a unique tactical experience. Bloons TD 6 is a great game that's fun for everyone, whether you're a tactical master or strategy newb thanks to its simple gameplay. Should you download it? If you're looking for a game that'll provide hours of strategic play and decision making, then this is a must-install application. Highs Vibrant animations and characters Utilize the nine unique heroes Upgrade and buff your towers Low Completing the game requires grinding The very-excellent tower defense game, Bloons TD 6—normally \$5 on mobile—is now available for free on iOS and Android for a limited time. Even if tower defense games aren't your scene, this one is going to suck you in with its combination of cutesy, monkey-themed gameplay and a decent difficulty curve as you get better at poppin' those horrible balloons. Or, as Lifehacker's senior technology editor David Murphy put it, "I wasted way too much of my summer climbing the ranks of the monkey army last year." There are no caveats or hoops to jump through with this one. Open the game's store page on the Apple App Store or Google Play and tap "install." It's free, but there's no word on how long it'll be free—so buy it now, and you can always decide to install or play it later. If you haven't played a tower defense-style game before, Bloons TD 6 is a strategy game that puts you in control of a cast of cartoony monkey characters that act as defensive units, popping waves of balloons that increase in number and difficulty. Each stage features different pathways and types of balloon enemies, and players must use their limited resources wisely to create the best possible defensive formations possible. Like many contemporary games, Bloons TD 6 features in-app purchases, most of which are cosmetic items like skins and characters. That said, it's completely playable without having to spend any money on it, since everything can be unlocked just by playing (and progression is quick). It should only take you a few stages of wrecking balloonny lives to accrue a solid chunk of XP to spend on upgrades and skins, and then you'll be hooked. Forever.
