Showing 1-30 Start your review of The Penguin Dictionary of Psychology Dec 04, 2020 Raynald Provost rated it really liked it Un grand souci de clarté, de nombreux exemples donnés. Et un bon point pour tous ceux qui lisent les dictionnaires, des petites pointes d'humour qui adoucissent la sécheresse. ...more Excellent reference book, 5/5. This should be standard to all beginning psychology students. The book covers all major sub-fields, schools, and perspectives in psychology, making it relevant to all contemporary psychology students. It is notably free of bias and gives exceptionally balanced and meaningful explanations of every psychology term an undergraduate is likely to come across. The definitions vary in length from single lines to half-page explanations, but they always stay on point while Excellent reference book, 5/5. This should be standard to all beginning psychology students. The book covers all major sub-fields, schools, and perspectives in psychology, making it relevant to all contemporary psychology students. It is notably free of bias and gives exceptionally balanced and meaningful explanations of every psychology term an undergraduate is likely to come across. The definitions vary in length from single lines to half-page explanations, but they always stay on point while providing the necessary background. A more seasoned psychologist might prefer a more technical reference book. This book is very accessible to the general public and therefore useful to someone starting out in psychology; for that purpose I have not found a better reference manual. ...more Feb 28, 2013 Gary Patella rated it it was amazing The amount of research and work that went into this really shows. Some of the Penguin Dictionaries are a bit lacking (e.g. Biology), but this one leaves nothing out.
